

BAUSTOFF + METALL

Trockenbau-Fachhandel mit *System*

BAUSTOFF + METALL OOD was founded in 2000 for *specialized sales of construction materials*.

The company is part of the Austrian Group **BAUSTOFF + METALL**, which has a leading position on the European market, with annual sales more than 700 million euro. The company aims to achieve technological leadership and provide high added value services. Our strategy is based on three principles:

1. Technical expertise;
2. Quality products;
3. Long-term thinking.

We provide consultations on complete solutions for each *detail* on site.

Fire protection, thermal insulation, soundproofing, acoustics, design, certified system solutions or innovative products – *50 years of European experience and tradition* are available to you.

Materials in stock at all times and deliveries exactly on schedule – logistics is easy when you are dealing with the right partner. Reliability is the key word in our operations.

During our longstanding presence in Bulgaria, we have built our noteworthy reputation and have gained the appreciation of our customers because we offer *quality, security, and financial stability*.

We believe that long-term thinking is the key to creating of good products and high living standard for people and that is why we keep investing in knowledge and development.

We are happy to receive the next *complex assignment* and win the trust of yet *another demanding customer*.
